

B. D. M. I. 360° Approach Holistic Development Of A Student

Our insight to prepare children for the future as Global citizens, the School believes in formulating the academic and non-academic areas as presented in the framework.

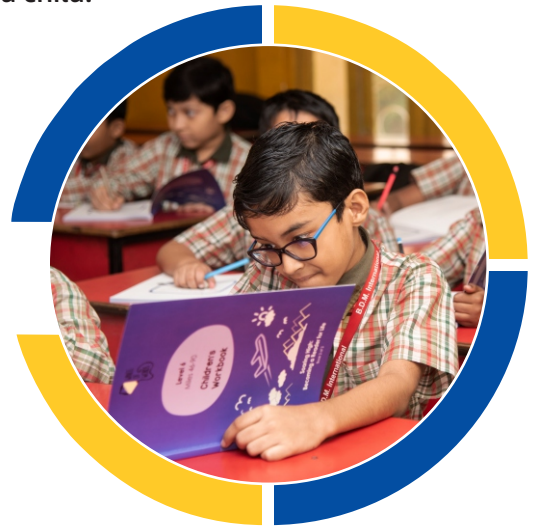

Budding Stone

Budding Stone, the pre-primary unit of B.D.M. International is the gateway to a child's formal education journey. Our teaching methodology aims to strike a perfect balance between tradition and modernity that helps a child develop holistically. Education is not limited to the four walls of the classroom. We believe in the holistic development of a child and the child-centric diverse corners at the pre-primary unit are fulfilling the scholastic as well as the co-scholastic needs of a child.

Stepping Stone

Stepping Stone, the primary unit of B.D.M. International serves as an intermediary between the conceptual learning stages and the career-building stages of a child. The needs of diverse learners are met by our dedicated teachers through application-based learning methods.

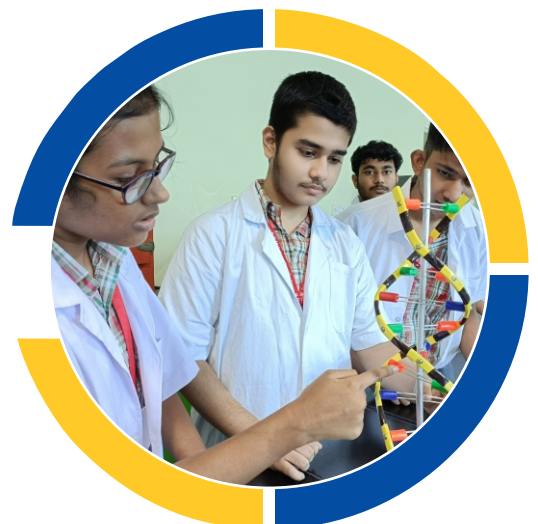

Milestone

The Upper Primary section of B.D.M. International - Milestone facilitates the students with multifaceted programmes and activities. It inculcates within them a cognitive zeal, holistic growth and individuality.

Gemstone

B.D.M.I. helps in creating the perfect teaching learning environment for the 21st century learners to meet the future challenges of this competitive world. More emphasis is laid on the teaching learning process through continuous assessments, group projects, doubt solving, practice mock tests and practical classes.
